ALBATROSS

ZOOLOGICAL SOCIETY, GARGI COLLEGE

Albatross, a bird known for its large wing span, signifies boldness and willingness to persevere, to fly high and reach heights of success. Our department along with the students union is no different.

Albatross, The Zoological Society of Gargi College endeavors to create an environment where, along with academics, various values are instilled in the students. Our department has been actively organising and participating in numerous events to keep our scientific temperament alive. In spite of the pandemic that has robbed us of the opportunity to meet offline, Albatross has not stood still!

We have continued with verger and remained active all year round with different activities to keep up the spirit of students and to instill participation and importance of extracurricular activities. Webinars, competitions, quizzes, and social media activities have been organized to keep nurturing the students.

Dr. Shivani Tyagi, the Teacher-In-Charge of Albatross, has always been like a support pillar to the Department. Dr. Madhu Yashpal and Dr. Kuntal Kalra, our Union advisors, from time and time have given their best efforts to aid and improve Albatross. All the Faculty members of our Department play a major role in not only academics, but also extracurricular development of students. They take care of students and provide an interactive environment, guidance and encouragement for the same.

The Student's council 2021-2022 of Albatross, the Zoological Society of Gargi College, symbolizes unity and a tireless perseverance to welcome knowledge and new experiences. This academic session our goals have remained the same.
