

We are thankful to **ISME, International Society of Microbial Ecology** and **FEMS, Federation of European Microbiological Societies** for supporting the two pre-conference workshops. The Editor-in-Chiefs of these two organisations have agreed to be part of these workshops on '*Genomics, Metagenomics and Bioinformatics in Microbial Ecology*' and '*Art of Scientific Writing and Communication*', scheduled on 7th and 8th November 2022 respectively. The registration for Workshops can be done with the link

<https://conference.inscr.co.in/pre-conference-workshops/>

The main conference begins with inauguration on 8th November 2022 with 10 sessions spread on three days. We have renowned speakers from many universities around the world to present their scientific achievements. There will be special sessions on 'Microbial **Literacy: Science for Society, Microbiology in India in last 75 years and Women in Science**'.

The registration for the main conference can be done with the link-
