About the conference

The initiative intends to collaborate with the finest neurologists and researchers in order to communicate the wonders of the brain and the influence of brain science on our daily lives. Through Brain Awareness Program, we want to advocate for brain research in the hope of finding cures for brain diseases and ensuring a better quality of life for people of all ages. This will also be a genuine effort to enhance women's engagement in science, particularly neuroscience.

Our Aim

Neurodegenerative disorders continue to be one of the most serious mental health issues. As a result, it is critical that the youth gets engaged in neuroscience research. This type of change must be actively advocated and encouraged. This programme is a minuscule attempt to mine frontier knowledge and prepare the road for the next generation of breakthroughs.

Speakers

October 07, 2022

Dr. Sanjay Pratap Singh

Brain – New Frontiers (10:00 AM)

Dr. Edwin Dias

Spectrum of Neurological disorders in newborn, infancy and childhood (5:00 PM)

Dr. Suman Jain

Prosopagnosia (6:00 PM)

October 08, 2022

Prof. Parvesh Bubber

History of Neuroscience (6:00 PM)

Dr. Ken Paller

The Science of Dreaming, Sleep and Memory (7:00 PM)

October 09, 2022

Dr. Edwin Dias

Congenital Insensitivity to Pain with Anhidrosis (5:00 PM)

Dr. Sushil Kumar Jha

Phantom limbs and Virtual Rehabilitation Therapy (5:45 PM)

Dr. Deepa Bhaskaran

Case studies of Savant Syndrome (6:30 PM)

October 10, 2022

Dr. Arun Sasidharan

The Enigma of Mirror Neurons (5:00 PM)

Ms. Rhea Dubey

Youth and Mental Health (6:00 PM)

Brain Teasers

HOW MUCH YOU KNOW ABOUT BRAIN

Brace yourself for a live quiz with thrilling rewards!

Open for all.

The first person to answer will be the winner.

Cultural Program

Indian Classical Dance

Artist: Ms Gracy Singh

NeuroLens

PHOTOGRAPHY CONTEST

**Exciting cash prizes for winners
eCertificates for all participants**

Registration Link
