# ABOUT THE COURSE

THE MAIN OBJECTIVE OF THE COURSE IS TO INTRODUCE THE BASIC CONCEPTS OF RESEARCH METHODOLOGY. THE COURSE AIMS TO ENABLE THE STUDENTS TO IDENTIFY RESEARCH AREAS, LEARN THE DATA COLLECTION PROCEDURES AND DATA ANALYSIS TOOLS, INTERPRET THE DATA AND PUBLISH THEIR RESEARCH WORK.

## WHY THE COURSE

The course will prepare the students for research in their fourth year under NEP UGCF.

## TOPICS TO BE COVERED

- Introduction to research
- Research Design
- Methods of Data collection
- Data Analysis
- Data presentation
- Working on Microsoft Excel
- Survey-based research
- Use of Search engines for collection of information effectively
- Reference Management Software
- Ethical issues related to publishing, Plagiarism
- Review article/research paper writing
- Journal metrics and choice of journals for publication
- Research work Presentation on PowerPoint and Canva

## EXPECTED OUTCOME

The course will enable students to have a sound background of research methodologies. It will motivate them to implement their research-based projects effectively and publish in reputed journals.

## EVALUATION

- The students would be evaluated periodically through quizzes to check their understanding on the topic.
- Continuous feedback would be collected using Google Forms throughout the course to resolve any issues raised by the students from different colleges.

## REGISTER TODAY

LIMITED SEATS: FIRST COME, FIRST SERVE BASIS.
